-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 21 December 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### DETAILED ACTION

On June 22, 2007, an Office Action was sent to the Applicant rejecting claims 1-32. On December 21, 2007, the Applicant responded by amending claims 1, 5-8, 11, 13-15, 20, and 29-32 and canceling claim 9.

#### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-8 and 10-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Patterson (2002/0198813) in view of Brennan (2005/0187855).

Patterson discloses the invention substantially as claimed; however, Patterson does not disclose an axis including indicia identifying prices within the price per unit range, and one or more bars displayed adjacent to the axis, wherein at any given point along the axis, a size of the bar in a direction perpendicular to the axis corresponds to the quantity available for cross trading at the price associated with said given point

along the axis. Patterson is silent with regard to the cross trade being between the one or more buy orders and the one or more sell orders. With regard cross trade, "a practice where buy and sell orders for the same stock are offset without recording the trade on the exchange, which is outlawed on most major stock exchanges. This also occurs when a broker executes both a buy and a sell for the same security from one client account to another where both accounts are managed by the same portfolio manager". Therefore, the Examiner finds that it is obvious to have a cross trade being between one or more buy orders and one or more sell orders.

Brennan teaches a method and corresponding system and computer readable medium for analyzing trade data comprising graphically displaying on an axis indicia including prices and one or more bars displayed adjacent to the axis (fig.5 and 11-12). It would have been obvious to one having ordinary skill in the art at the time the invention was made to incorporate the teachings of Brennan within Patterson for the motivation of having an alternative means for graphically displaying the trade information.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-8 and 10-32 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
